Architectural/Landscaping Changes Information
Merrifield Village Homeowner Association

IMPORTANT: READ BEFORE COMPLETING REQUEST

Congratulations! You are taking the first step toward improving your home. Merrifield Village is a neighborhood governed by a Homeowner Association with covenants and by-laws. When making changes to your property, you must complete the attached request form with information regarding the changes you are considering. The Board of Directors must approve the changes you are considering to be sure they comply with the covenants and by-laws.

Guidelines to consider when planning your improvement or change:

- Diggers Hotline must be contacted when shrubs or trees will be planted. Contact them either online <http://www.ne-diggers.com/Locate/Homeowners.aspx> or by calling 402 344-3565 to submit a request.
- When planning landscaping changes, you must consider the mature size of the shrubs and trees. If the mature tree/shrub will hang into your neighbor's lot, the planting must be adjusted. Also, allow enough space between the mature planting and your home. Planting too close to the home may impair painting of the home.
- Underground sprinklers may be impacted with landscape changes. All costs are the homeowner's responsibility. Any architectural changes made without verifying the location of underground sprinklers that result in damage to the sprinkler system are the homeowner's responsibility.
