

WESTWOOD CONDOMINIUMS

Location of clean-out sewer caps & water meter closets/water shut-off valves

Also repeats for bldgs, 5 thru 8, 9 thru 12, 13 thru 16

120th Street

121st Street

The water meter closets are located on the south side of each building where the ranch unit connects with the two-story unit.

The shut-off valves are labeled on the wall inside the closet for each unit and can be used in the event the water to your unit needs to be shut-off.

The clean-out sewer caps are located on the east and/or west side of each ranch unit. They are available for use by your plumber if you experience clogged drains.
